FACULTY:

P. H. MELL, D. D., LL. D., CHANCELLOR.

DAVID W. LEWIS, A. M., PRESIDENT.

(University of Georgia.)

Professor of Greek and English.

E. H. BECK, A. M.,

(Wesleyan University, Ky.)

Professor of Natural Science.

B. P. GAILLARD, A. M.,

(Oglethorpe University.)

Professor of Latin.

B. M. HALL, B. E.,

(University of Georgia.)

Professor of Mathematics and Astronomy.

JOSEPH GARRARD, 1ST LIEUT. 4TH U. S. ART.,

(U. S. Military Academy.)

Professor of Military Science and Tactics.

M. G. BATES, A. B.

(North Georgia Agricultural College.)

Adjunct Professor of Latin.

W. F. CRUSSELLE, A. B.,

(North Georgia Agricultural College.)

Adjunct Professor of Greek and English.

PRIMARY DEPARTMENT.

M. G. BATES,

Principal of Boys Primary Department.

MISS LEONIE G. KUHTMAN,

Principal of Girls Primary Department.

NOTE.—The professors relieve each other by an interchange of duties when convenient and expedient.

REPORT.

To the Trustees of the University of Georgia:

Gentlemen: You will see from the list of matriculates which accompanies this report, that notwithstanding the loss of the College, by fire in December, 1878, the great inconvenience to which our pupils have been placed, in going from one building to another, at considerable distance from each other, as well as other disadvantages, the number of students is somewhat greater than at any former period of our eight years' history.

OUR NEW COLLEGE BUILDING.

This new and beautiful structure was commenced last Fall, and work was prosecuted very rapidly in the hope that we could hold our winter exercises in it. But various obstacles thwarted our expectations, and work was stopped about the 1st December, and not renewed until first of May.

It will be remembered that the last General Assembly failed to vote any appropriation to re-build the College. The bill received a majority of all the votes cast, but failed for want of a constitutional majority. Another effort will be made before the next General Assembly. The success of that effort will depend very much upon whether or not the Trustees of the University will lend their aid and encouragement to the movement. It is quite possible that the last General Assembly was not in proper mood to hear and determine questions involving the expenditure of money for educational purposes. Certain it is, that the outlook is much better now than it ever was before for obtaining aid from the Legislature.

The means employed, so far, in re building the College were; first, the endowment fund, consisting of $3,066.04 and the sum of $4,469 94 borrowed from the President of Board of Trustees, and $500 contributed by Mr. Thos. H. White, of Cleveland, Ohio, which last mentioned sum is hereafter to be replaced and bestowed on the library. So far, the work has progressed under the immediate care of the Building Committee, (and not by contractors,) thus saving, as we think, a considerable sum of money. The expenditure being thus far below the estimates of the architects and proposals of contractors.

Negotiations are pending for the loan of an amount of money, which will be sufficient to cover in the building and prepare a sufficient number of rooms and halls for the use of professors and classes by the 1st of September next.

To accomplish this we have had to take largely from the means hitherto used for supplementing the amount received from the State University Board of Trustees to pay our teachers. Of course not a cent of that received from the College scrip has been thus used.

We have been led to this course, because it was, in the first place, of the highest importance that a suitable building should be built. In no other way could we hope to retain the great number of young people who were attending the exercises of the school. Beginning the work of re-building gave hope to the students, the faculty and the public. To have waited until the State authorities were ready to begin the work might have proved fatal. Again, it was believed that if the State finally waked up to the importance of fulfilling her obligations in the premises it would not be objected to that the Trustees had anticipated the work, especially when it is shown that the money has been wisely expended. The money thus spent upon the building, and borrowed from individuals, as well as the same taken from the endowment fund, is to be repaid and replaced out of the monies hereafter appropriated by the State or otherwise provided for.

OUR NORMAL DEPARTMENT.

This department continues to be a source of great benefit to the State. Last July we commissioned seventy-nine young men and young women to teach in our State schools. From reliable returns these teachers, together with those heretofore sent

forth, instructed no less than FIVE THOUSAND CHILDREN in the Fall of 1879. The scheme for removing the Normal College from Tennessee to Georgia having failed the Normal Department of the North Georgia Agricultural College will likely continue to be the only legal Normal College in the State. It is a fact, not known to many persons in Georgia, except those who have made it their business to look into the question that the General Assembly of Georgia, by public enactment, has provided for a Normal Department in the Dahlonega College, and that for three years past it has commissioned, and sent forth, more teachers to the common schools of the country than any so-called Normal College in the South. And from its peculiar advantages it will henceforth continue to perform this great labor for the State, whether the work is recognized by the State or not; or whether a great Normal College is established by the State to benefit some particular town or city, which may possibly furnish a few full-fledged professors, but few, if any, who are willing to perform the drudgery of teaching poor children in country school houses at very low wages.

THE MILITARY DEPARTMENT.

Notwithstanding we have not as yet been supplied with a full complement of arms by the General Government, to make up for those lost by the fire, the corps of cadets have been kept up to fine discipline by Lieut. Joseph Garrard, Commandant of Cadets. We have assurances from Washington that the guns will be restored by the time our new arsenal is ready to receive them--say in September next.

NOTE.—Since the above was written, we have been notified by the Secretary of War that the full complement of arms will be forwarded at once.

OUR FACULTY.

With the exception of the resignation of Prof. B. M. Hall, there has been no change in our faculty since last report. Prof. Hall leaves us to take the position of Civil Engineer for one of our large mining companies in this section. He leaves us with the best wishes of our Board for his success. He has labored zealously with us for five years past, and won an enviable reputation for his skill as a teacher as well as for his scientific attainments. In his new field of labor he will yet largely contribute to the development of this section of the State.

The discipline of the College is still in the hands of the Faculty. But few breaches of decorum have occurred during the year. These have been settled without much difficulty. A more perfect and satisfactory government will likely prevail when all the departments of the College are brought again within one building and one campus.

HEALTH.

It is again a matter of great pride that we allude to the present healthful condition of our students. Although the past winter was the season for the periodical visitation of that much abhorred epidemic—the measles—we had no fatal cases, notwithstanding there were perhaps 200 cases among the pupils This disease comes along once in every two or three years, and our pupils take it as one of the regular College courses, by means of which, we believe they are enabled the better to withstand at least some of the ills of life, after they leave College. In any event, we are glad to report that the epidemic has come and gone, leaving our young people, apparently, in better health than we have ever known them at this season.

VISITING COMMITTEE.

We trust that the absence of your regularly appointed committees from our Commencement Exercises for the past three years has not been the result of indifference upon their part, but from inability to attend. Their presence would greatly benefit us, and we trust that henceforth we shall have their presence and counsel.

OUR TEACHING FORCE.

For reasons given, to-wit: the using of our endowment fund, and other means, in order to restore the College as far as possible, we shall have to reduce the number of our teachers unless the money to pay salaries is secured to us from some unknown source. Whether this will effect the number of students who will attend next year we cannot say. One thing is certain, our means are exhausted. The whole of the sum received from your Board goes to our teachers. We cannot reduce their salaries without

losing their services. If it is possible for your Board to increase the sum appropriated to our College to $4,500 per annum, we could keep up the present number of teachers, which number can now barely perform the labor required at their hands.

THE FUTURE.

Our prospects for accomplishing good in the future were never better. We shall at an early day come forth from the ashes—fully restored, invigorated and refined by the fire. The Institution closed its seventh year—its infantile life—by witnessing the destruction of the building, within whose walls had worked, as few men and women had ever worked before, to disseminate light and knowledge. Its youth and manhood opens upon a career of usefulness to the country which it is difficult to fully foresee and estimate. We will not believe that either the great State of Georgia, or the great University of the State, will allow it to languish for want of support and encouragement.

Respectfully submitted,

W. P. PRICE, President Board of Trustees.

Adopted by the Board.

COURSE OF STUDY.

COLLEGIATE DEPARTMENT.

FOURTH CLASS.

LATIN.—Cæsar; Virgil; Cicero; Grammar.
GREEK.—Harkness' First Book; Greek Reader.
MATHEMATICS.—Robinson's University Algebra; Loomis's Geometry, through the 6th book.
NATURAL SCIENCE.—Physiology; Natural Philosophy.
ENGLISH LANGUAGE AND LITERATURE.

THIRD CLASS.

LATIN.—Horace; Cicero; Sallust; Latin Prose; Roman Antiquities.
GREEK.—Prose Composition; Anabasis; Homer.
MATHEMATICS.—Loomis's Geometry, completed; Plane and Spherical Trigonometry (Robinson's); Murray's Surveying.
NATURAL SCIENCE.—Physical Geography; Physics; Elementary Chemistry.
ENGLISH LANGUAGE AND LITERATURE.

SECOND CLASS.

LATIN.—Cicero's Ethical Works; Terence; Latin Prose Composition and Original Exercises.
GREEK.—Arnold's Greek Prose Composition; Herodotus; Xenophon's Memorabilia.
MATHEMATICS.—Church's Analytical Geometry; Millar's Descriptive Geometry; Church's Calculus.
MILITARY DEPARTMENT.—Upton's Infantry Tactics; U. S. Artillery Tactics; Welcker's Military Lessons.
METAPHYSICS AND RHETORIC.—Mental Philosophy; Moral Philosophy; Rhetoric.
NATURAL SCIENCE.—Roscoe's Theoretical Chemistry.
ENGLISH LANGUAGE AND LITERATURE.

FIRST CLASS.

LATIN.—Composition; Quintilian; Juvenal.
GREEK.—Prose Composition; Alcestis of Euripides; Antigone of Sophocles; Prometheus Vinctus of Æschylus.
APPLIED MATHEMATICS.—Parkinson's Mechanics; White's Astronomy.
MILITARY DEPARTMENT.—Benton's Ordnance and Gunnery; State Militia Laws; Ives's Military Law; Reed's Signal Tactics; Mahan's Field Fortifications; Wheeler's Art and Science of War; Analysis of Civil Government.
LOGIC AND GEOLOGY.—Logic; Dana's Geology.
NATURAL SCIENCE.—Agricultural Chemistry.

Bachelor of Arts Degree.—Young men who satisfactorially complete the above course of study will graduate with the degree of Bachelor of Arts.

Young ladies, who complete the same course, French taking the place of Mechanics and Military science, will graduate with the same degree.

Young Ladies' Department.—The regular course for young ladies is the same as Bachelor of Arts course, omitting all the Mathematics except Arithmetic, Algebra and Geometry, and all the Greek except Syntax, Composition and Xenophon or Testament—and taking, instead, a course in one of the Modern Languages. Young ladies completing this regular course will receive diplomas and be declared graduates in the Young Ladies' Department of the N. G. A. College.

PREPARATORY DEPARTMENT.

SECOND CLASS.

English.—Swinton's Grammar and Composition; History of the United States.
Latin.—Leighton's Lessons; Reader.
Mathematics.—Arithmetic; Inventional Geometry.
Geography; Penmanship; Drawing.

FIRST CLASS.

English.—Swinton's Grammar and Composition.
Latin.—Leighton's Lessons; Reader.
Mathematics.—Robinson's Arithmetic; Robinson's Elementary Algebra.
Geography; Zoology; Penmanship; Drawing.

PRIMARY DEPARTMENT.

The College has had since its organization a well attended Primary Department for those pupils over seven years of age, whose attainments do not allow of their entering the Preparatory Department.

To enter the latter department the pupils must pass an examination, showing that they can read correctly, write legibly, and that they are prepared on primary geography, and in arithmetic to decimal fractions.

INFORMATION.

APPARATUS.

A valuable Philosophical and Chemical Apparatus, as well as useful and instructive Astronomical Apparatus, have been purchased and are now in use in the Department of Natural Science.

SOCIETIES.

Three Literary Societies have been organized in the College, to wit: The Price Debating Society, the Decora Palæstra Society, and the Phi Mu. These Societies have done much toward the improvement of the young men of the College. The young ladies of the institution have likewise a society, composed of their number, which is called the Corona Hædera Society.

EXPENSES.

In estimating the expenses of students all the principal boarding houses have been visited for the purpose of giving correct information, with the following results for monthly expenses of board and washing: $6.00—$11 00—$12.00--$15.00. Many of the students bring provisions from their homes, and thus reduce their expenses in money to $3.00 per month. During the last year about forty students have lived at a monthly expense of $6.00 by furnishing provisions, and paying $2.00 for room and cooking.

Yearly expenses for books, paper, etc., from $10.00 to $20.00, and uniform, (worn all the time,) consisting of cap, blouse and two pairs of pants $20.50.

From the foregoing data we find that the average daily expenditure can be brought down to twenty-nine cents, varying from that to seventy-five cents. Anything above this may be considered as decided extravagance upon the part of the student.

LOCATION.

Dahlonega is the county site of Lumpkin county, a village of six or seven hundred inhabitants, exclusive of students of the College. It is twenty-five miles by stage from Gainesville on the Richmond and Atlanta Air-Line Railroad, and about seventy miles north of Atlanta. It is in the centre of Northeast Georgia, fifty miles from the State lines of Tennessee, North and South Carolinas. The mountains lie all around and about the place, rendering it one of the most beautiful and romantic places in the South. Fine freestone water abounding everywhere, and mineral springs within easy walk of the College building, that are regarded by eminent physicians and chemists as containing medicinal properties for the cure of many of the diseases which afflict residents of the low country, to-wit: chills, fevers and malarial diseases generally, and are specially recommended for rheumatism and dyspepsia. There are three churches in the place—Methodist, Baptist and Presbyterian. Two Sabbath Schools are regularly kept up. The SIGNAL is published weekly in the place. Its columns are always open for the publication of original compositions by the students, and will, from time to time, contain useful information concerning the College, its experiments, examinations, etc.

Students, on their arrival at Gainesville, will take the daily hack line for Dahlonega. Fare ranging from $1.50 to $2.00.

VISITORS FROM THE UNIVERSITY.

The following members of the Board of Trustees of the University of Georgia were appointed to visit the North Georgia Agricultural College Commencement Exercises for the year 1880: A. H. Colquitt, N. L. Hammond, Abda Johnson.

FALL SESSION.

The next Fall Session—which is the beginning of the scholastic year—commences on the first Monday in September, 1880, and continues, without interruption, until the first of February, at which time the Spring Term begins.

ADMISSION FEE.

No tuition fees are exacted of any student. An admission fee of five dollars, each term, is paid by those who are not in indigent circumstances. The latter are furnished with cards of admission by the Relief Committee. Just as soon as our means will allow, it is the design of the Board to require no fees whatever. The admission fees go entirely to defray the expenses of wood and repairs on the building, as there is no fund from which to meet these demands.

OBJECTS.

The educational intelligence afforded by this institution has especially in view the preparation of the pupil:

1. For the business and for the enjoyment of practical *home* and *farm* life.
2. For the higher classes in the University of Georgia.
3. For the profession of teaching, and as a passport to the same *Certificates of Proficiency* in the studies of the several departments, and of qualifications to teach, will be granted by the Trustees to students, showing diligence, aptitude and progress in their education. The Faculty, by express authority of the Legislature, can grant licenses to the students in this institution to teach in the State schools without further examination.

NORTH GEORGIA AGRICULTURAL COLLEGE.

An Act to Establish a Normal Department in the North Georgia Agricultural College at Dahlonega, and to more efficiently provide for the Military Department of the same, and for other purposes.

SECTION 1. *Be it enacted by the General Assembly of the State of Georgia*: That, as soon after the passage of this Act as practicable, the Board of Trustees of the North Georgia Agricultural College, shall be required to organize more fully and efficiently a Normal Department in said college. Said Board of Trustees, shall, in connection with the State Board of Education, adopt such rules and regulations as may be necessary and proper for the free admission of such pupil, male and female—not less than one from each county—as may express the desire and intention of following the business of teaching. The object being to provide, as early as possible, a sufficient number of capable and efficient teachers for the common schools of the State, and to provide others, as may be demanded, from time to time. Said Board of Trustees shall have power, under terms agreed upon before the admission of pupils to this department, with consent of the parent or guardian, to send said pupils, during the fall months, to teach remote schools not otherwise provided for.

SEC. 2. Be it further enacted by the authority aforesaid: That said Board of Trustees shall be authorized to contribute to the support of such teachers as may be sent to remote school districts, from any fund in their hands not otherwise specially appropriated, such sums of money, which, taken with such aid as may be secured from patrons, as will enable them properly to subsist while so engaged; but nothing contained in this section shall authorize the schools so taught to be kept for a longer period than three months in any scholastic year. Said Board of Trustees are also authorized to provide room rent free to such pupils while attending the Normal Department, and such other aid as will enable such pupils to subsist upon the most economical plan. And the certificate of proficiency and licenses to teach, which may be granted by the Faculty of said college to such pupils as may be found to be qualified to teach, shall be countersigned by the President and Secretary of the Board of Trustees, and bear the seal of said institution: and the persons holding such certificates and licenses shall not be required to un-

dergo an examination, or procure a license from any Board of Education or County School Commissioner, before they can teach in any of the common schools of the State, where they are employed by the patrons of the school.

Approved February 23, 1877.

LIBRARY.

The Institution has only a limited number of volumes at this time. Generous contributions have found their way to the College during the past year, which, we trust, will be largely augmented in time. To make up this deficiency, the large and valuable library of President Lewis, equalled by but few, if any, private libraries in the State, has been generously thrown open to the use of students during the past year, for which the Trustees feel profoundly grateful. The privilege of his library has been of immense benefit to the school.

We shall be pleased to receive contributions of books, pamphlets, rare old papers, and pictures of prominent authors, statesmen, educators, divines, lawyers, physicians, artizans, musicians, as well as those who distinguish themselves in any other of the honorable pursuits of life. These will have a conspicuous place assigned them in the College.

THE "STEVENS" MEDAL.

The faculty again tender their acknowledgements to J. P. Stevens & Co., the well known jewelers of Atlanta, for the gold medal that is given by them each year to be worn by that student of this College who has the best record in the different departments. Walter S. Wilson, Effingham county, to whom this medal was awarded for the year 1878-9, has so well sustained the record by which he won the Medal for the past year that it was again awarded him with great unanimity.

It is but justice to many other students to say that they had maintained a record which in the opinion of the Faculty placed their names on the list from which the man was to be selected who should bear off this honor. It is deemed not improper here to mention the names of J. J. Gaillard, H. E. Wilson, J. P. Alexander, C. G. Power, W. J. Neel, W. J. Dobbs, among that number.

THE PHI MU MEDAL.

Col. C. B. Randell, of Denison, Texas, has presented to the Phi Mu Society a beautiful gold medal to be awarded to the best debater by a vote of the Society. He was once a member of this Institution and one of the founders of this Society. The medal has been awarded by an almost unanimous vote to Mr. H. E. Wilson, of Effingham county.

A FEATURE,

DISTINCTIVE, VALUABLE, UNEQUALLED.

This institution has a place for a pupil of any grade of scholarship, from the first term or class of the Primary Department, through the Senior class of the Bachelor of Arts course. Hence, the value to families. Parents, with sons and daughters, from five to twenty-five years of age, do come and take up their residence here for these advantages, and thus enjoy, while their children are being educated, the blessings of a family with all at home—freedom from anxiety for children sick at a distant boarding school—the influence of home and of parents, valuable to sons, essential to daughters—and the influence of an unconsious education of the younger pupils, which is derived from their observation of the manners, the proper language, the propriety of dress, which they daily witness in the older and better cultivated pupils, and the attention and assistance and protection which older brothers and sisters can give to the younger when in the same school.

GRADUATES

Of the North Georgia Agricultural College for the Year 1878.

(Receiving Degree of A. B.)

M. G. Bates.....Murray county.
R. N. Coffee.....Gordon county.
G. W. Collier.....Fulton county.
W. F. Crusselle.....Fulton county.
E. B. Earl.....Floyd county.
J. R. Gray.....Bartow county.
W. D. Harris.....Murray county.
Miss Willie Lewis.....Lumpkin county.
O. N. Starr.....Gordon county.
Trammell Starr.....Gordon county.

Graduates of 1879.

(Receiving Degree of A. B.)

J. H. Abernathy.....Fulton county.
J. W. Henley.....Murray county.

(Graduates in Young Ladies Course.)

Miss Lizzie Chapman.....Lumpkin county.

Graduates for 1880.

(Receiving Degree of A. B.)

J. J. Gaillard.....Spalding county.
Miss Mary R. Lewis.....Lumpkin county.
H. E. Wilson.....Effingham county.
W. S. Wilson.....Effingham county.

†Excused from military duty on account of physical disability, see rule 22.
‡Deceased.
*Expelled.

GOVERNMENT.

The following rules have been adopted for the government of the College, and others will be added when deemed advisable:

1. Whilst the College is in session the students are under the direction of the Faculty.

2. Pupils may enter the College at any time during the session, but it is advisable that they should enter at the beginning of a term. The reasons for this rule are too many and obvious to be repeated.

3. Every pupil is required to attend the opening exercises every morning, or to be marked for neglect or tardiness, unless excused.

4. The Holy Bible shall never be excluded from among the books that are used in the Institution.

5. As divine service is held nearly every Sabbath in the year in the churches of the village, it is expected that each student will attend divine service at least once every Sabbath; and for irreverent behavior while attending church, shall be suspended, or otherwise punished, according to offense.

6. Regular attendance upon recitations is so important that none will be excused, except where necessity will justify their absence.

7. No pupil shall be allowed to leave before the close of the session, except upon the request or permission of the parent or guardian.

8. No student shall be received of known immoral habits, nor where they have been expelled from other Institutions, except upon satisfactory evidence of reformation, which will be determined by the Board of Trustees.

9. Strict attention to study, and punctuality in attendance on lectures, recitations and other duties, will be made the *condition* of every student's continuance at the College, except where they are broken off by the requirements of the farm or other home demands. During their stay within the town, no student will be allowed to devote the hours of study in idleness and vagrancy.

10. Students are required quietly to take their places in the Recitation Rooms at the appointed times; to attend closely to the exercises of the hour—not whispering,

communicating in any manner with each other—and, when the exercise is over, to retire in a quiet and respectful manner.

11. The habit of contracting debts at stores—except for necessary books and stationery and of hiring horses or vehicles—except on business approved by the Faculty—is strictly forbidden, unless with the knowledge and permission of parent or guardian in writing.

12. The use of spirituous or intoxicating liquors is strictly forbidden, and if any student is known to have, drink, or procure the same for himself, or to furnish it to another student, or to assist another student to obtain it—he shall be suspended for three months or expelled.

13. A student who shall offer or accept a challenge to fight, or in any way aid, abet, or promote a duel; or upbraid another for declining to fight, shall be expelled.

14. Pupils are prohibited from entering into combinations under whatever pretext, for the purpose of disturbance or for violating or evading any authorized rule or order. Any one engaging in riotous conduct, or becoming a party to an agreement to hold no intercourse with a fellow-student, or to do any act to the prejudice of good order and gentlemanly bearing, shall be suspended or expelled, according to the aggravation of the offense. Propriety of behavior is enjoined upon students at all times and places.

15. No pupil will be allowed to play cards, or bet, or wager money, or any other thing of value, upon games of chance.

16. Each student is required, on entering the College, to deliver to the Commandant of Cadets any pistol or other deadly weapon he may have in his possession nor is any student allowed to keep or have under his control any such weapon, neither his own nor that of another; and any one drawing, or using such weapon against another, will be expelled.

17. Profane swearing, or corrupt language, and defacing the walls, will receive prompt punishment. And all offences against good morals, and all irregularities or neglects, to the prejudice of good order and gentlemanly bearing, though not herein enumerated, will be taken cognizance of, according to the nature and degree of the offence.

18. Cleanliness is strictly enjoined, and it is expected in every instance that male students will wait upon themselves, polish their own shoes, dust their own clothing, and make their own fires. Young ladies, whether boarding at the institution or in families in the village, will be expected to keep their rooms in perfect order, and to perform all other domestic duties that may properly fall upon them to do. These things are enjoined and expected, because one of the prime objects in view is to teach the young men and young ladies of the country the importance of self reliance and self dependence.

19. No student shall be allowed to engage in any concerts, charades, exhibitions or minstrelsies. Nor shall any student, while connected with the Institution, be allowed to attend balls, or loiter about places of dissipation, nor attend circuses, without the consent of the parent or guardian.

20. All damage to the college building, breaking of seats or window glass, shall be immediately repaired by the pupil committing the same, or by his or her parent or guardian. On failure to repair or pay for the same, the pupil shall be expelled from the school, and not allowed to enter again until the amount is paid or damage repaired.

21. No student is allowed to discontinue his connection with the College before the term is out, without the express consent of the Faculty. In the case of non-resident students, they will be under the jurisdiction of the Faculty until they leave the town. Where a pupil absents himself without leave, his name will appear in the catalogue as EXPELLED.

22. No male student shall be excused from the rules governing the military department of the College, except for physical disability; that they are thus excused will appear in the catalogue.

23. No student is allowed to smoke on the streets of the town, on piazzas or grounds fronting the streets, on the College grounds, nor in the College rooms or halls.

24. Study hours, when students are required to be at their studies in their rooms, or engaged in some other duty, are from 8 a. m. to 12:30 p. m., from 2 p. m. to 4 p. m., and from a half an hour after sun set to 6 a. m. During the day Saturdays study hours are only enforced until 11 a. m. Students are allowed to retire at 9 30 p. m. and unless on duty will never leave their rooms after 10 p. m.

MILITARY DEPARTMENT.

This department, under the immediate command of Lieutenant Joseph Garrard 4th, United States Artillery, was organized in the early part of the spring term of 1877. The Battalion consists of two Companies, and is officered by Cadets, chosen generally from the higher classes, for their proficiency and skill in the various drills.

Theoretical Instruction—Comprises recitations in the several text books: Upton's Infantry Tactics, U. S. Artillery Tactics, Welcker's Military Lessons, Analysis of Civil Government, Ordnance Notes, Benton's Ordnance and Gunnery, Wheeler's Art and Science of War, Ives's Military Law and Mahan's Field Fortifications. All of these books, with two exceptions (Civil Government and Military Lessons), are in use at the U. S. M. A., having been recommended by the Faculty and approved by the Secretary of War.

Practical Instruction—The members of the Battalion are drilled in the several schools in order: School of the Soldier (including Bayonet Exercise), of the Company (including Skirmish Drill), and of the Battalion. We find that the drill gives to the students exercise which is absolutely essential to health of body and mind and which many of them would not take unless required to do so. The Cadets are drilled daily, Sundays excepted, when the weather permits. The drill hour is taken from the time allowed for recreation and exercise. The Battalion had 138 members during the past year, some of whom have been regular attendants for three years.

Artillery Drill.—The officers non-commissioned officers, and picked privates are frequently drilled in the "Manual of the Piece;" circumstances, at present, preventing further progress in this drill.

Certificates.—Military drill and discipline are obligatory upon all able-bodied male students. Should a student feel unable to perform the duties required in this department, he can be excused on a certificate of the *resident* physician appointed by the Board of Trustees for this purpose. The certificate must state the nature of the disease; length of time the student will be disabled, etc. It would be advisable to bring a letter from one's attending physician.

Arms—We have at present 87 Cadet Springfield rifles (breech-loaders) and accoutrements, and two 3-inch wrought iron guns and carriages furnished by the General Government. The number of the rifles will probably be increased to 150 by the beginning of the Fall Term. A liberal supply of ammunition is also furnished yearly.

Target practice is frequently indulged in, under supervision of the Commandant, and the scores made are very creditable. Creedmoor targets and rules are used.

In the match for the best shots in the Corps of Cadets, June 6th, 1880, the following scores were made:

	100 yds.	200 yds.
Private Bramlett—"A"	4 5 4	4 5 5—27.
Adjt. Gaillard—"A"	4 5 5	3 4 4—25.
Private Hurt—"B"	4 4 4	5 4 3—24.
Private Coleman—"B"	4 4 5	4 3 4—24.

Uniform.—Uniforms are worn at all military drills and formations. The students in the Military Department are required to provide themselves with uniforms, consisting of blouse, pants and cap, within *one month* from the time they enter the College—the quality of the cloth is not considered, but the color *must be* of the *uniform* color of Cadet grey. The Commandant should be consulted as to the color of cloth before the suits are made. Average cost of a good uniform $15.00

OFFICERS OF THE CORPS OF CADETS.

Joseph Garrard (1st Lieut. 4th U. S. Art.,) Major and Com'd't of Cadets.

STAFF.

Jas. J. Gaillard,	Cadet Lieut. and Adjutant.

Those students who leave here to teach, and those who have left heretofore are requested to make a report to this College of the number of students under their instruction. These reports should be sent in by the middle of September and may be made as full as possible in other things than mere numbers. A consolidation of these reports will show a feature of usefulness in our College that has never yet been sufficiently definite, viz: the value of this College as a Normal College and one that furnishes teachers to teach the children of the State and thereby improve the whole people.
